SECTION 1: IDENTIFICATION

Product Identifier
Product Form: Substance
Product Name: Carbon Dioxide (DRY ICE)
Synonyms: CO₂

Intended Use of the Product
Use of the Substance/Mixture: Multiple uses: Industrial, Food & Beverage, Pharmacopeia. For professional use only.

Name, Address, and Telephone of the Responsible Party
Company, Manufacturer
Reliant Gases, LTD
10817 W County Road 60
Midland, Texas 79707
T: 432-617-4200
http://www.reliantholdingsltd.com

Emergency Telephone Number
Emergency Number: (800)523-5566 (Internal)

SECTION 2: HAZARDS IDENTIFICATION

Classification of the Substance or Mixture
Classification (GHS-US)
Not classified

Label Elements
GHS-US Labeling: No labeling applicable

Other Hazards
Solid carbon dioxide sublimates to give off gaseous CO₂. Carbon dioxide is the most powerful cerebral vasodilator known. Can result in increased respiration, dizziness, shortness of breath and headache. Exposure to high concentrations for a period of time can result in oxygen deficiency, effects of which may include rapid breathing, diminished mental alertness, impaired muscular coordination, faulty judgment, depression of all sensations, emotional instability, and fatigue. As asphyxiation progresses, nausea, vomiting, prostration, and loss of consciousness may result, eventually leading to convulsions, coma and death.

Unknown Acute Toxicity (GHS-US) Not available

SECTION 4: FIRST AID MEASURES

Description of First Aid Measures
General: If you feel unwell, seek medical advice (show the label where possible).
Inhalation: If inhaled, remove to fresh air and keep at rest in a position comfortable for breathing. Give oxygen or artificial respiration if necessary. If necessary administer pulmonary resuscitation or oxygen, and keep warm. Seek immediate medical advice.
Skin Contact: If frostbite or freezing occurs, immediately flush with plenty of lukewarm water to GENTLY warm the affected area. Do not use hot water. Do not rub affected area. Get immediate medical attention.
Eye Contact: Immediately rinse with water for a prolonged period (at least 15 minutes) while holding the eyelids wide open. Do not rub. Seek medical attention immediately.
Ingestion: Ingestion is an unlikely route of exposure for a gas. If frostbite or freezing occurs, immediately flush with plenty of lukewarm water to GENTLY warm the affected area. Do not use hot water. Do not rub affected area. Get immediate medical attention.
**Carbon Dioxide (DRY ICE)**

Safety Data Sheet

According To Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules And Regulations

**Most Important Symptoms and Effects Both Acute and Delayed**

**General:** Effects of exposure (inhalation, ingestion or skin contact) to substance may be delayed.

**Inhalation:** Inhalation may affect the nervous system causing headache, possibly dizziness, nausea, weakness, loss of coordination and unconsciousness. Risk of suffocation due to oxygen deficiency in confined areas. In elevated concentrations may cause asphyxiation, central nervous system effects, and increased breathing rate. Symptoms of asphyxiation include headache, dizziness, rapid breathing, increased pulse, mood changes, tremors, cyanosis, muscular weakness, narcosis, numbness of the extremities, unconsciousness and death.

**Skin Contact:** May cause frostbite.

**Eye Contact:** May cause frostbite.

**Ingestion:** Ingestion is likely to be harmful or have adverse effects.

**Chronic Symptoms:** Not available

**Indication of Any Immediate Medical Attention and Special Treatment Needed**

Symptoms may be delayed. Carefully monitor patients with severe or prolonged exposure for signs of neurological sequelae. If breathing is difficult, give oxygen.

**SECTION 5: FIRE-FIGHTING MEASURES**

**Extinguishing Media**

**Suitable Extinguishing Media:** Not flammable. Use extinguishing media appropriate for surrounding fire.

**Unsuitable Extinguishing Media:** None known.

**Special Hazards Arising From the Substance or Mixture**

**Fire Hazard:** Not flammable.

**Explosion Hazard:** Product is not explosive.

**Reactivity:** Hazardous reactions will not occur under normal conditions.

**Advice for Firefighters**

**Precautionary Measures Fire:** Exercise caution when fighting any chemical fire.

**Firefighting Instructions:** Use water spray or fog for cooling exposed containers. Do not breathe fumes from fires.

**Protection During Firefighting:** Firefighters should wear full protective gear.

**Hazardous Combustion Products:** Carbon oxides (CO, CO₂).

**Reference to Other Sections**

Refer to section 9 for flammability properties.

**SECTION 6: ACCIDENTAL RELEASE MEASURES**

**Personal Precautions, Protective Equipment and Emergency Procedures**

**General Measures:** Evacuate area. Stop leak if safe to do so.

**For Non-Emergency Personnel**

**Protective Equipment:** Use recommended respiratory protection.

**For Emergency Personnel**

**Protective Equipment:** If possible, stop flow of product. Use recommended respiratory protection.

**Environmental Precautions**

Prevent entry to sewers and public waters. Notify authorities if product enters sewers or public waters.

**Methods and Material for Containment and Cleaning Up**

**For Containment:** Ventilate area.

**Methods for Cleaning Up:** Ventilate area. Clean up spills immediately and dispose of waste safely. Take up mechanically (sweeping, shovelling) and collect in suitable container for disposal.

**Reference to Other Sections**

See heading 8, Exposure Controls and Personal Protection. For further information refer to section 13.

**SECTION 7: HANDLING AND STORAGE**

**Precautions for Safe Handling**

**Additional Hazards When Processed:** Avoid contact with skin, eyes and clothing.

**Hygiene Measures:** Handle in accordance with good industrial hygiene and safety procedures. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work.
**Conditions for Safe Storage, Including Any Incompatibilities**

**Technical Measures:** Ensure all national/local regulations are observed. Provide local exhaust or general room ventilation.

**Storage Conditions:** Store in a dry, cool and well-ventilated place. Keep container closed when not in use. Keep only in original container.

**Storage Area:** Store in dry, cool area. Store in a well-ventilated place. Protect from high temperatures.

### Specific End Use(s)

Multiple uses: Industrial, Food & Beverage, Pharmacopeia. For professional use only.

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

### Control Parameters

For substances listed in section 3 that are not listed here, there are no established Exposure limits from the manufacturer, supplier, importer, or the appropriate advisory agency including: ACGIH (TLV), NIOSH (REL), OSHA (PEL), Canadian provincial governments, or the Mexican government.

**Exposure Controls**

**Appropriate Engineering Controls:** Oxygen detectors should be used when asphyxiating gases may be released. Ensure adequate ventilation, especially in confined areas. Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. Ensure all national/local regulations are observed.

**Personal Protective Equipment:** Protective goggles. Protective clothing. Insufficient ventilation: wear respiratory protection. Gloves.

**Materials for Protective Clothing:** Chemically resistant materials and fabrics.

**Hand Protection:** Wear chemically resistant protective gloves.

**Eye Protection:** Chemical safety goggles.

**Skin and Body Protection:** Wear suitable protective clothing.

**Respiratory Protection:** A NIOSH-approved self-contained breathing apparatus (SCBA) operated in a pressure demand or other positive pressure mode or equivalent respirator should be used in situations of oxygen deficiency (concentration less than 19.5%), unknown exposure concentrations, conditions that are immediately dangerous to life or health (IDLH), or when exposure levels are above ACGIH or OSHA exposure limits.

**Thermal Hazard Protection:** If material is cold, wear thermally resistant protective gloves.

**Environmental Exposure Controls:** Do not allow the product to be released into the environment.

**Consumer Exposure Controls:** Do not eat, drink or smoke during use

**SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES**

**Information on Basic Physical and Chemical Properties**

- **Physical State:** Solid
- **Appearance:** Colorless
- **Odor:** Odorless to slightly pungent
- **Odor Threshold:** Not available
- **pH:** 3.2 - 3.7 (Saturated CO₂ Solution)
- **Evaporation Rate:** Not available
- **Melting Point:** -109.3 °F (-78.50 °C)
- **Freezing Point:** -109.3 °F (-78.50 °C)
- **Boiling Point:** -109.4 °F (-78.56 °C)
- **Flash Point:** Not applicable
- **Critical Temperature:** 87.6 °F (30.89 °C)
- **Auto-ignition Temperature:** Not available
- **Decomposition Temperature:** Not available
- **Flammability (solid, gas):** Not flammable
Carbon Dioxide (DRY ICE)

Safety Data Sheet

According To Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules And Regulations

---

**SECTION 10: STABILITY AND REACTIVITY**

**Reactivity:** Hazardous reactions will not occur under normal conditions.

**Chemical Stability:** Stable under recommended handling and storage conditions (see section 7).

**Possibility of Hazardous Reactions:** Hazardous polymerization will not occur.

**Conditions to Avoid:** Direct sunlight. Extremely high or low temperatures. Ignition sources. Incompatible materials.

**Incompatible Materials:** Dusts of various metals, such as magnesium, zirconium, titanium, aluminum, chromium & manganese are ignitable and explosive when suspended in carbon dioxide. Forms carbonic acid in water.

**Hazardous Decomposition Products:** Decomposes above 2000°C. This produces toxic carbon monoxide.

---

**SECTION 11: TOXICOLOGICAL INFORMATION**

**Information on Toxicological Effects - Product**

**Acute Toxicity:** Not classified

**LD50 and LC50 Data:** Not available

**Skin Corrosion/Irritation:** Not classified

**Serious Eye Damage/Irritation:** Not classified

**Respiratory or Skin Sensitization:** Not classified

**Germ Cell Mutagenicity:** Not classified

**Teratogenicity:** Not classified

**Carcinogenicity:** Not classified

**Specific Target Organ Toxicity (Repeated Exposure):** Not classified

**Reproductive Toxicity:** Not classified

**Specific Target Organ Toxicity (Single Exposure):** Not classified

**Aspiration Hazard:** Not classified

**Symptoms/Injuries After Inhalation:** Inhalation may affect the nervous system causing headache, possibly dizziness, nausea, weakness, loss of coordination and unconsciousness. Risk of suffocation due to oxygen deficiency in confined areas. In elevated concentrations may cause asphyxiation, central nervous system effects, and increased breathing rate. Symptoms of asphyxiation include headache, dizziness, rapid breathing, increased pulse, mood changes, tremors, cyanosis, muscular weakness, narcosis, numbness of the extremities, unconsciousness and death.

**Symptoms/Injuries After Skin Contact:** May cause frostbite.

**Symptoms/Injuries After Eye Contact:** May cause frostbite.

**Symptoms/Injuries After Ingestion:** Ingestion is likely to be harmful or have adverse effects.

**Information on Toxicological Effects - Ingredient(s)**

**LD50 and LC50 Data:** Not available

---

**SECTION 12: ECOLOGICAL INFORMATION**

**Toxicity** No additional information available

**Persistence and Degradability** Not available
